Note:

1. Provider is only available in South Korea.
2. Service requires activated Hard-disc navigation (Code 365) as prerequisite.
3. Comfort data volume is currently only offered in selected markets in Europe as part of the Entertainment package (see in *Entertainment Package Service and Providers Market Availability*). For the remaining connected markets, customers could use Bluetooth/ Wi-Fi tethering or purchasing separate third-party data package if available for connectivity in the car.
4. Entertainment Package services and providers market availability is subject to changes and could vary at any time.
